Senior Product Designer

Mathieu Nauleau

+31 6 16 70 52 80 Amsterdam, moving to Paris math.nauleau@gmail.com mathieunauleau.com (pwd: UXD4sign!)

10 years of product design experience on complex products (retail, energy, aerospace). Working closely with PMs and developers, I bridge domains and turn fuzzy topics into clear, consistent digital solutions across multiple brands and platforms. Design systems and AI are at the core of my practice.

EXPERIENCE

Senior Product Designer & Design System Lead

Eneco, Netherlands | Energy | 2026–Present

- Involved in a B2B product (ongoing): sales flow simplified from 6 to 3 steps, from design through user testing. Flow conversion +20%.
- Made our System AI-ready: Claude skills for tokens, documentation, Figma generation via MCP, and automated token checks.
- Rolled out Spark across 7 product teams, 2 brands and 2 platforms (React, Kotlin). Component adoption went from 0.2% (Jan. 2026) to 38%. Estimated time savings of 15% per designer and developer (internal survey of 26 respondents).
- Set up Figma governance and DesignOps processes to accelerate adoption across the organization.

Product Designer — B2C/B2B eCommerce & Design System

Ahold Delhaize, Netherlands | Retail eCommerce | 2021–2025 (4y)

- Lead designer of the multi-brand app: Gall&Gall +11,000 app customers and +€180K revenue in 3 months; Etos +54,000 customers and +€570K in 6 months.
- Lead delivery App: conversion +15% and revenue +23% in one year.
- Lead designer of an anti-food-waste app, later integrated into the main app, which helped save about 1,700 tonnes of unsold food.
- Shipped MVP of an internal pricing tool for the Merchandising unit: ran a 2-day discovery workshop with its users and used vibe-coding to guide development.
- Design system member serving 18 technical teams, then Design System Lead in the final year: expanded to 20+ products.

Service Designer

Safran Cabin, Netherlands | Aeronautics | 2020 (1y)

- Complex in-flight services ecosystem under certification constraints: visualizations to align stakeholders, interface POC for the crew, user interviews for the prototype.

Industrial & UX Designer

WeArePerspective, Amsterdam, Netherlands | 2015–2019 (4.5y)

- Interfaces, branding and packaging for start-ups and multinationals.

EDUCATION

- Industrial design, École de design Nantes Atlantique (2010–2015)
- Milwaukee Institute of Art & Design, USA (fall 2013)

TRAINING

- Leadership (01/2026)
- AI & Agents (11/2025)
- Data-driven design (01/2025)
- Product Management & Strategy, 3 months (2023)
- Design for complexity, 3-day masterclass (2021)

SKILLS

- Discovery, user research and testing, data analysis and CRO
- AI agents, Claude skills, workflow integration
- Figma (MCP), VSCode, GitHub
- WCAG 2.1 AA, multi-brand tokens, components, documentation, governance
- Project management, roadmap

SOFT SKILLS

Pragmatic, solution-oriented
Prototyping to align teams
Facilitating a variety of workshops
Collaboration with PMs and Tech
French, Professional English
